Dear Jean

Here is a water issue that might be worth looking into for the MPR  
Thank you

Greg Holzman

Dear Greg Holzman, Jason Badua, Ihor Basko, The Kilcoynes, EPA Region 9, Carl Berg, Dustin Dillberg, and Bruce Pleas (all Bcc'd – letters were mailed to the other 4 invited persons),

**Subject: National Pollutant Discharge Elimination System (NPDES)**

**Informational Meeting and Field Trip**

**Sunrise Capital, Inc.**

**Zone of Mixing No. ZM-271**

**NPDES Permit No. HI 0021654**

The Department of Health (DOH), with the cooperation of Sunrise Capital, Inc., will be holding an informational meeting and facility field trip on September 16, 2010, at the Sunrise Capital, Inc. shrimp farm facility located at 6556 Kaumualii Highway, Kekaha, Island of Kauai, Hawaii. The DOH apologizes for the short notice, but wanted to have this event when Sunrise Capital's management would be able to be in Kauai to represent the facility and provide a facility tour.

The selection of the meeting site at the Sunrise Capital facility will allow for the convenient physical viewing the facility operations as part of or upon the conclusion of the informational meeting. Please note that due to the limited space availability of the meeting area at the shrimp farm and logistics concerns associated with accommodating a very large group during the field trip, the DOH has had to limit the number of guests that may be invited to the facility, and therefore is inviting only those 12 persons which the DOH has considered to have submitted comments on the public notice Draft NPDES permit that are substantive in nature.

The DOH is cordially inviting you to the Thursday, September 16, 2010 informational meeting and field trip at the Sunrise Capital, Inc. facility. Please **RSVP via e-mail to [cleanwaterbranch@doh.hawaii.gov](mailto:cleanwaterbranch@doh.hawaii.gov) or phone (808) 586-4309 by September 13, 2010**, if you plan to attend. *Please note that if you are unable to attend, only one (1) person may attend as a substitute for you.*

The September 16, 2010 informational meeting and field trip shall begin at 8:30 a.m. and is anticipated to end at 12:30 p.m. Following is the tentative general outline for the informational meeting and field trip, which may not be carried out in the particular order:

1. Overview of the comments and concerns received during the public notice comment period for the Sunrise Capital, Inc. Draft NPDES permit.
2. Discussion on the comments and concerns and possible remedies.
3. Question and answer session about the facility operations.
4. Facility visit/walk through to assist in further understanding of the facility operations.

In your RSVP response please indicate if you will or will not attend, if not, the substitute person, if any, and the NPDES Permit No. HI 0021654. If the DOH does not receive your RSVP response by September 13, 2010, we will assume that you will not attend.

Should you have any questions, please contact Ms. Joanna L. Seto, Supervisor of the Engineering Section, Clean Water Branch, at (808) 586-4309.

Sincerely,

Joanna Seto for ALEC WONG, P.E., CHIEF
